**Village of Sauk City  
Applying for a Building Permit**

The Village is not responsible to find your lot lines. If you are applying for a building permit and do not know where your lot lines are you must have a certified survey filed with your application.

The elevation of your building cannot create a water run off problem for you or any adjoining parcel.

In order to process you application you must submit the following with your building permit:

- Site plans showing all lot lines and the exact measurements from each lot line to the new and existing structure.
- Elevations of the new construction and existing buildings.

When you sign the building permit and file your drawings you are stating that you know where your lot lines are.

I have read the above information and understand that I am responsible for knowing exactly where my lot lines are.

**§ 365-68. Permit required.**

No sign shall hereafter be located, erected, moved, reconstructed, extended, enlarged, converted or structurally altered without a zoning permit, except those signs listed in § 365-69 of this chapter, and without being in conformity with the provisions of this chapter. The sign shall also meet all the structural requirements of the Building Code.

**§ 365-69. Signs in residential and agricultural districts.**

Only those signs listed in this section are permitted in residential and agricultural districts. All other signs are prohibited.

- A. Signs over shop windows or doors of a nonconforming business or industrial establishment announcing, without display or elaboration, only the name and occupation of the proprietor and not to exceed two feet in height and 20 feet in length. Nonconforming signs on such establishments shall be removed two years from the date of adoption of this chapter.
- B. Real estate signs, not to exceed eight square feet in area, which advertise the sale, rental, or lease of the premises upon which the signs are temporarily located.
- C. Name, occupation and warning signs, not to exceed two square feet, located on the premises.
- D. Bulletin boards for public, charitable or religious institutions, not to exceed 15 square feet in area, located on the premises.
- E. Memorial signs, tablets, names of buildings and date of erection when cut into any masonry surface or when constructed of metal and affixed flat against a structure.
- F. Official signs, such as traffic control and parking restrictions, information and notices.
- G. Temporary signs or banners, when authorized by the Plan Commission.

**§ 365-70. Signs in business and industrial districts.**

Signs are permitted in all business and industrial districts, subject to the following restrictions:

- A. Signs prohibited in public ways. Except for traffic signs, signs specifically permitted to project into the public way by this chapter, or any other sign so authorized by law, no signs shall be placed upon, over, or in any public way. Except for signs projecting from business structures located on the front property line, any signs located upon, or encroaching upon, any public way shall be removed within one year of the adoption of this chapter. Permits for signs projecting into any street shall be revocable as provided by the Wisconsin Statutes.
- B. Signs not to constitute a public hazard. No sign shall be erected at any location where it may, by reason of its position, shape, color or other characteristics, interfere with, obstruct the view of, or be confused with any authorized traffic sign, traffic signal or other traffic device, nor shall any sign make use of the word "stop," "look," "drive-in," "danger" or any other word, phrase, symbol, or character in such

a manner as to interfere with, mislead, or confuse traffic.

- C. Lighting. No sign shall be illuminated by intermittent, rotating, or flashing lights.
- D. Ground signs. Ground signs will be permitted in lieu of signs on building facades, subject to the size restrictions of the sign replaced, and must observe all applicable building setback lines and shall not exceed 30 feet in height.<sup>1</sup>
- E. Signs projecting into the street. No sign shall project over any part of any street, except where a business structure is located on the front property line. In such case, a sign may not extend more than 48 inches into any street.
- F. Termination of a business. At the termination of a business, commercial, or industrial enterprise all signs shall forthwith be removed from public view. Responsibility for violation shall reside with the property owner, according to the latest official tax roll listings.
- G. Shopping centers or industrial parks. In a shopping center or industrial park, one freestanding identification sign may be permitted showing the name of said center or park and the represented businesses or industries. The area of the sign shall not exceed 100 square feet on one face and 200 square feet on all faces. The sign shall not be permitted within 20 feet of right-of-way line of the street. See Figure 6 of the appendix to this chapter and on file in the office of the Village Administrator.
- H. Surface display area. The total surface display area of business or industrial signs on the front facade of a building shall not exceed two square feet per linear foot of width of the building frontage. In the case of a building located on a corner lot, such display area on the side facing the secondary street may be increased by one square foot per linear foot of the length of the building which faces the secondary street. The increased permitted display area shall be used only for the erection of a permitted sign of the length of the building which faces the secondary street. Where the premises abut a parking lot, the total display area may be increased by 0.5 square foot per linear foot of width or length of the building fronting on such parking lot. Such increased display area shall only be utilized for the erection of a permitted sign on that part of the building which abuts the parking lot. In no case shall the wall area usable for sign display be in excess of 200 square feet, and in no case shall more than one of the abovementioned criteria be used to calculate allowable sign area on any one building facade. See Figure 5 of the appendix to this chapter and on file in the office of the Village Administrator.
- I. Projections beyond building line. Business and industrial signs mounted on buildings shall not be permitted to project more than 24 inches beyond the building line.
- J. Number of signs. No more than one business or industrial sign shall be permitted on the front facade of any business or industrial building, including any advertisement permanently fastened to show windows or display cases. Only one business or

---

<sup>1</sup>. Editor's Note: Original § 17.15.03E, Billboards on vacant lots, which immediately followed this subsection, was deleted at time of adoption of Code (see Ch. 1, General Provisions, Art. II).

industrial sign shall be permitted on each side or rear wall of a business or industrial building.

- K. Directional signs. Necessary directional ground signs, not exceeding four square feet in area, will be permitted. Permission to erect such signs must be obtained from the Police Department and from the Plan Commission.
- L. Lighting. Business and industrial signs may be internally lighted or illuminated by a hooded reflector; provided, however, that such lighting shall be arranged to prevent glare, and no signs shall have lighting of an intermittent or varying intensity. Animated signs, or signs having moving parts, or signs which may be mistaken for traffic signal devices or which diminish the visibility or effectiveness of such traffic signal devices are prohibited.
- M. Obstruction of openings. Any sign so erected, constructed, or maintained as to obstruct or be attached to any fire escape, window, door, or opening used as a means of ingress or egress, or for fire-fighting purposes, or placed so as to interfere with any opening required for legal ventilation is prohibited.
- N. Street intersections. No sign or advertising device shall be erected or maintained at the intersection of streets in such a manner as to obstruct clear vision of the intersection.
- O. Height. No sign shall be erected above the roofline of a building or more than 30 feet from the ground.
- P. Billboards. Billboards, outdoor advertising signs and any business or industrial signs not located on the same property as the business or industry advertised shall not be permitted in any district.
- Q. Hanging signs. Signs shall be permitted to hang from canopies or covered walks in business or industrial districts, provided that there shall be only one sign, not to exceed five square feet in area, for each business and that the sign shall be at least 10 feet above ground level.
- R. "Special Sale" signs. "Special Sale" or "Poster" signs are permitted in the business districts. However, only 25% of the store windows can be covered at any one time. See Figure 5 of the appendix to this chapter and on file in the office of the Village Administrator.

**§ 365-71. Existing signs.**

Except for billboards and signs on nonconforming uses, signs lawfully existing at the time of adoption or amendment of this chapter may be continued although the use, size, or location does not conform to the provisions of this chapter. However, it shall be deemed a nonconforming use or structure, and the provisions of Article XVIII of this chapter shall apply.

**§ 365-72. Billboards to be removed.**

Billboards shall be removed by the person owning such billboard, or the owner of the property on which such billboard is located, within one year from the date of the passage

of this chapter. Should the property owner of the billboard or the owner of the property on which a billboard is located fail to remove such billboard within one year, the Building Inspector shall, following 60 days' written notice to the owner of the billboard and the owner of the property on which the billboard is located, cause the billboard to be removed at the expense of the owner of the billboard. Special exceptions may be granted by the Village Board for general information signs or directional signs.

**§ 365-73. Bond required.**

Every applicant for a zoning permit for a sign shall, before the permit is granted, execute a surety bond in a sum to be fixed by the Zoning Inspector, but not to exceed \$25,000, and it shall be of a form and type approved by the Village Attorney, indemnifying the Village by reason of the erection, construction, or maintenance of such sign. A liability insurance policy issued by an insurance company authorized to do business in the state and conforming to the requirements of this chapter may be permitted by the Village Attorney in lieu of a bond.

F-W	Floodway	Open space uses only												

NOTES:

- (a) Minimum lot width for corner lots: 70 feet.
- (b) Shopping centers require a minimum area of four acres; minimum frontage of 400 feet; and the following setbacks: 100 feet front, 40 feet side and 40 feet rear.
- (c) Minimum side yard for street side of corner lot: 15 feet.
- (d) Minimum lot area per multifamily dwelling unit: at least 2,000 square feet and not less than 1,500 square feet, plus 500 square feet per bedroom.
- (e) Minimum side yard when abutting residential area must be 15 feet.
- (f) Minimum of 10 feet from an alley.
- (g) Minimum setback from federal, state or county trunk highways shall be 25 feet.
- (h) If a side yard is provided, it shall have a minimum width of 10 feet.
- (i) Minimum side or rear setback when abutting residential area: 50 feet.
- (j) Minimum area, width, setback, side yards, and rear yard shall conform to the requirements of the residential area abutting.
- (k) Minimum setback from county trunk highways and town roads shall be 63 feet from the center line of the roadway or 30 feet from the edge of the right-of-way line, whichever is more restrictive. Minimum setback from federal or state trunk highways shall be 110 feet from the center line of the roadway or 50 feet from the right-of-way line, whichever is more restrictive.
- (l) Minimum side and rear setbacks of principal and accessory structures in the A-P, A-H and A-T Zones shall be the same as the side and rear setback requirement in the rest of the Town of Prairie du Sac, as determined by the Town Board of Supervisors.

I understand that I am subject to all applicable codes, laws, statutes and ordinances, including those described on the reverse side of the last ply of this form; am subject to any conditions of this permit; understand that the issuance of this permit creates no legal liability, express or implied, on the state or municipality; and certify that all the above information is accurate. If one acre or more of soil will be disturbed, I understand that this project is subject to ch. NR 151 regarding additional erosion control and stormwater management and the owner shall sign the statement on the back of the permit if not signing below. I expressly grant the building inspector, or the inspector's authorized agent, permission to enter the premises for which this permit is sought at all reasonable hours and for any proper purpose to inspect the work which is being done.

I vouch that I am or will be an owner-occupant of this dwelling for which I am applying for an erosion control or construction permit without a Dwelling Contractor Certification and have read the cautionary statement regarding contractor responsibility on the reverse side of the last ply of this form.

### **Cautionary Statement to Owners Obtaining Building Permits**

101.65(1r) of the Wisconsin Statutes requires municipalities that enforce the Uniform Dwelling Code to provide an owner who applies for a building permit with a statement advising the owner that:

If the owner hires a contractor to perform work under the building permit and the contractor is not bonded or insured as required under s. 101.654 (2) (a), the following consequences might occur:

(a) The owner may be held liable for any bodily injury to or death of others or for any damage to the property of others that arises out of the work performed under the building permit or that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

(b) The owner may not be able to collect from the contractor damages for any loss sustained by the owner because of a violation by the contractor of the one- and two- family dwelling code or an ordinance enacted under sub. (1) (a), because of any bodily injury to or death of others or damage to the property of others that arises out of the work performed under the building permit or because of any bodily injury to or death of others or damage to the property of others that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

### **Cautionary Statement to Contractors for Projects Involving Building Built Before 1978**

If this project is in a dwelling or child-occupied facility, built before 1978, and disturbs 6 sq. ft. or more of paint per room, 20 sq. ft. or more of exterior paint, or involves windows, then the requirements of ch. DHS 163 requiring Lead-Safe Renovation Training and Certification apply. Call (608)261-6876 or go to the Wisconsin Department of Health Services' lead homepage for details of how to be in compliance

### **Wetlands Notice to Permit Applicants**

You are responsible for complying with state and federal laws concerning the construction near or on wetlands, lakes, and streams. Wetlands that are not associated with open water can be difficult to identify. Failure to comply may result in removal or modification of construction that violates the law or other penalties or costs. For more information, visit the Department of Natural Resources wetlands identification web page or contact a Department of Natural Resources service center.

### **Additional Responsibilities for Owners of Projects Disturbing One or More Acre of Soil**

I understand that this project is subject to ch. NR 151 regarding additional erosion control and stormwater management and will comply with those standards.

Owner's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

### **Contractor Credential Requirements**

All contractors shall possess an appropriate contractor credential issued by the Wisconsin Division of Safety and Buildings. Contractors are also required to only subcontract with contractors that hold the appropriate contractor credentials.
