**Village of Sauk City
Applying for a Building Permit**

The Village is not responsible to find your lot lines. If you are applying for a building permit and do not know where your lot lines are you must have a certified survey filed with your application.

The elevation of your building cannot create a water run off problem for you or any adjoining parcel.

In order to process you application you must submit the following with your building permit:

- Site plans showing all lot lines and the exact measurements from each lot line to the new and existing structure.
- Elevations of the new construction and existing buildings.

When you sign the building permit and file your drawings you are stating that you know where your lot lines are.

I have read the above information and understand that I am responsible for knowing exactly where my lot lines are.
